

Consultation Reply Design And Conservation

PLANNING CONSULTATION RESPONSE Application No 93.51862.FUL Proposal Change of use of first-floor and attic level into a self-contained flat including alterations to ground floor to create access. Address 17 Foundry Court, Doncaster, ZZ25 1WD Date of Consultation Reply <redacted_date> Consultee Planning Policy and Environment – <redacted_name> Design and Conservation Consultation Assessment and Justification 17 Foundry Court, Doncaster, ZZ25 1WD lies within the Doncaster – High Street Conservation Area. The Great North Road forms the spine of the conservation area and was the main north/south route passing by the Roman fort of Danum, being part of the historic route between London and Edinburgh. In the medieval period the street was enclosed within the town gates and the pattern of burgage plots still survive remarkably intact. The high quality of the commercial buildings in the conservation area reflects the prosperity and the fashionable character of Doncaster from the 18th to 20th centuries. Civic pride is expressed in the magnificent Grade 1 listed Mansion House, one of only three examples in the country. Businesses along the High Street and its continuation as Hall Gate, are a mix of principally financial and professional services with some retail outlets. The adjoining streets are mainly medieval in origin, some indicating the line of Doncaster's historic town ditch. The townscape here varies between streets where Georgian and early Victorian interventions remain largely intact, such as Priory Place, to those with a greater degree of replacement buildings as a result of road widening schemes at the beginning of the twentieth century, such as Silver Street, St. Sepulchre Gate, Baxter Gate and Scot Lane. Businesses here are characterised by smaller, more specialist retailers. 17 Foundry Court, Doncaster, ZZ25 1WD are part of a terrace of retail units that date from c.<redacted_date> and typify the 2-storey brick built buildings with stone dressings built by the Corporation at the time as part of a road widening scheme. These generally had commercial space to the ground floor and living accommodation over and are characterised by dormers and profiled gables. They were designed in groups and 17 Foundry Court, Doncaster, ZZ25 1WD is part of a range of symmetrical buildings (5-17) dating from <redacted_date>. Whilst each building has lost some of its special interest there are clues in all the buildings of the former appearance of the group. The buildings are described in the conservation area character appraisal as having a positive impact on the conservation area. The heritage significance of the building resides primarily in the appearance of the front elevation and its relationship with other similar buildings on the street. 17 Foundry Court, Doncaster, ZZ25 1WD is however unfortunately marred by its modern shopfronts, unauthorised roller shutters and bulky unattractive fascia sign. The first-floor windows have also been modified. The proposal is for change of use of the first floor and attic level. There are no objections in principle to the change of use and there is potential that the existing first floor windows could be upgraded and amended to reflect their original design. The removal of the unauthorised roller shutter, which would need to at least be done to allow unfettered access to the door to the flat, as part of alterations to the shopfront and replacement of the current unauthorised fascia signage with one/two more appropriate would also help to enhance the character and appearance of the conservation area. If the above are addressed the proposal should be able to be supported as it should then be in accordance with Policy 37 of the Local Plan, and Section 16 (Conserving and enhancing the historic environment) specifically paragraphs 208, 210 and 212 of the National Planning Policy Framework on determining applications. Consultation Conditions Conditions for any replacement windows on frontage and removal of the unauthorised roller shutter Consultation Informative N/A Planning Obligations N/A
