

Consultation Reply

Planning Consultation Response: Consultee Comments: The Lead Local Flood Authority (LLFA) require that following conditions are added to the above application: Full Details of Proposed On-Site Drainage Required (Condition DA01) The development hereby granted shall not be begun until details of the foul and surface water systems and all related works necessary to drain the site have been submitted to and approved by the Local Planning Authority. These works shall be carried out concurrently with the development and the drainage system shall be operating to the satisfaction of the Local Planning Authority prior to the commencement of the development. REASON: To ensure that the site is connected to suitable drainage systems and to ensure that full details thereof are approved by the Local Planning Authority before any works begin Notes to the applicant: For advice on drainage strategies, please see the City of Doncaster Councils Local Plan, the SY interim guidance for Suds, the Flood Risk SPD and the Technical and Developer Requirements SPD to ensure you have supplied sufficient drainage information for the planning application. The documents can be found on the websites: Local Plan - City of Doncaster Council
