

Design And Access Statement Amendment Confirmation Of Car Parking

Design and Access Statement Page 1 AMENDMENT TO APPLICATION – CONFIRMATION OF PARKING ARRANGEMENTS

Proposal: Change of Use of first floor from Use Class C3 (residential) to Use Class F2 (Local Community Uses)

Reference: <redacted_url>

Location: The Meeting House, 42 Brook Street, Hexthorpe, Doncaster, ZZ46 0BG

Car Parking: We have been asked to confirm the parking arrangements on the site and, in particular, to confirm how many car parking spaces are available on site and the number that could be allocated to the first floor. There are 20 unmarked car parking spaces at the property, private and for the exclusive use of the property. These are situated in the rear yard are which has a rolled asphalt ("tarmacadam") surface. They are accessed via private gates onto Flowitt Street with the total area shown shaded in blue on the plan below.

Previously, each of the former three flats was provisionally allocated a single car parking space in this yard but few tenants ever required one. The remaining spaces were allocated to the community centre but have very rarely been used by that part of the property. We understand that the Local Plan states 1 space per 22-25 sq m for conference centres (above a threshold of 2,500 sq m). The total meeting space for the whole property is around 150 sq m which would require 6/7 car spaces (disregarding the threshold). The first floor itself (the subject of this application) is only around 50 sq m of meeting space which would require 2 car spaces. Design and Access Statement Page 2 Given that the number of spaces required (6) is substantially lower than the actual number of spaces already provided (20) then the proposal easily complies with policy (for the whole property and even before consideration of the threshold). In addition, there is a small public parking area opposite and, in any event, many visitors and users will continue to be from the local community and easily walk to the property. We would prefer to have no specific allocation of spaces to the first floor and the property would be let as a whole in the first instance. Nevertheless, if planning policy requires this then we would ask for a planning condition at the level of 2 spaces for the first floor.
