

Synthetic vehicle access drawing pack

Domestic dropped kerb, frontage parking and footway relationship

Access Notes

- Vehicle standing is shown wholly within the domestic frontage.
- Dropped kerb width is proportionate to a single domestic access.
- Surface water is retained within the site by permeable surfacing or drainage strip.
- Footway route remains legible across the frontage.
- Works in the highway require separate technical agreement outside this synthetic pack.

Legend

-  Application boundary
-  Existing building
-  Vehicle crossing
