From: <redacted_name> <redacted_email> Sent: <redacted_date> 10:32:55 UTC+01:00 To: <redacted_name> <redacted_email> Subject: FW: 99.53186.FUL Highway Consultation Response From: <redacted_name> <redacted_email> Sent: <redacted_date> 10:18 To: <redacted_name> <redacted_email> Subject: 99.53186.FUL Highway Consultation Response Hi <redacted_name>, I have assessed the documentation available for 99.53186.FUL and would make the following comments. The application is for the installation of a sliding entrance gate to the front driveway of the property, 1.5m in height at the existing dwelling 46 Station Road, Skellow, Doncaster, ZZ38 8VR, Skellow. The location of the sliding gate is shown on the attached PDF '99.53186.FUL Site Plan'. The installation of the sliding gate would require the pedestrian visibility splay to be assessed, required a 2m x 2m pedestrian visibility splay be maintained at the access while the gate is in the open position. The plan shows the gate in the open position, which sits behind an existing 3m grass verge which fronts the property. With the 3m verge in place, the pedestrian visibility splay is not required, due to the set back nature of the footpath in relation to the access at the property. Overall I would be happy to support the application without the need for conditions and informatives. If you need any more information please get in touch.
