

Flood Risk Assessment

APPLICATION REFERENCE	FAKE/2026/1514/FUL
SITE	The Willows, Mill Dyke Lane, West Thorne, South Donshire, ZZ68 3QT
DOCUMENT TYPE	Flood risk statement

FLOOD RISK CONTEXT

This fictional flood-risk note has been prepared for a synthetic cottage plot near a drainage channel and pumping-station context. It is not based on real hydraulic modelling, Environment Agency mapping or a live flood warning area.

PROPOSED MITIGATION

The drawings annotate a raised finished floor level, flood-resilient materials to the lower wall zone, permeable driveway surfacing and a surface-water route away from the cottage threshold.

Garden levels, garage threshold, soft landscaping and exceedance routing are shown indicatively for extraction and assessment testing.

RESIDUAL MATTERS

Detailed levels, drainage calculations and maintenance responsibilities are not provided in this synthetic pack. The document is only a realistic supporting-paper example.
