BIODIVERSITY NET GAIN

Biodiversity net gain is a legal requirement for planning permission introduced on <REDACTED>. All applications are required to either provide

detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of

the Town and Country Planning Act 1990 (as amended)) would apply?: No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of

planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all

planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also

need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Note: Please read the help text for further information why developments may be exempt or not in scope.
