These drawings are intended exclusively for use by authorised individuals and in this project. This design remains the copyright of the designer. No part of this drawing or associated information may be altered, copied, or reused without the written consent of the designer. Any proposed changes shall be referred to and agreed upon with the designer before implementation. Contractors and site operatives must verify that all work is carried out in accordance with the approved drawings, relevant standards, and applicable health and safety regulations. All dimensions and levels shall be verified on site before fabrication, procurement, and construction, serving as a control point to ensure accuracy. The designer accepts no responsibility for works that are installed incorrectly, unsafely, or not in accordance with the issued information. These drawings have been produced solely for Planning application submission and shall not be used for any other purpose. The drawings may be subject to amendment during the statutory approval process, which typically follows a standard timeline. Any surveyed or measured information shown on the drawing is indicated and cannot be guaranteed to be unless confirmed by a third-party check on site.
